

Step 7: Listen to the voice mail on the phone. (vm1.mp3)

Step 8: From the challenge video you will see the following image

Go to MR Beast Instagram and search for baby and you'll get the following

Link: www.QRjustgettingstarted.com

Step 9: Visit the new link and you'll end up on a page with never ending generating QR codes.

All the QR codes will lead to a page like this.

You have to find the correct QR code.

You can either scan each one using and QR Scanner or using the developer console paste the code (from QR Console.txt) and wait for a success message.

```

https://www.mrriddle.com/qrjustgettingstarted/m/skpjhi2hjNTV
```

Link <https://www.mrriddle.com/qrjustgettingstarted/m/skpjhi2hjNTV> (this will be different for you)

Step 10: <https://www.youtube.com/watch?v=d-gfKoxst18> (Cookie.mp4)

The video is referring to this image from the challenge video

If you go through Chandler's followers you will find an account name mrcookieishere
I used a git project twint (<https://github.com/twintproject/twint>) and the following command (this will take some time)

```
sh-3.2# twint -u ChandlerHallow --followers | grep cookie
```

```
blurry_cookiez  
maxcookie112  
mrcookieishere  
themikecookies
```

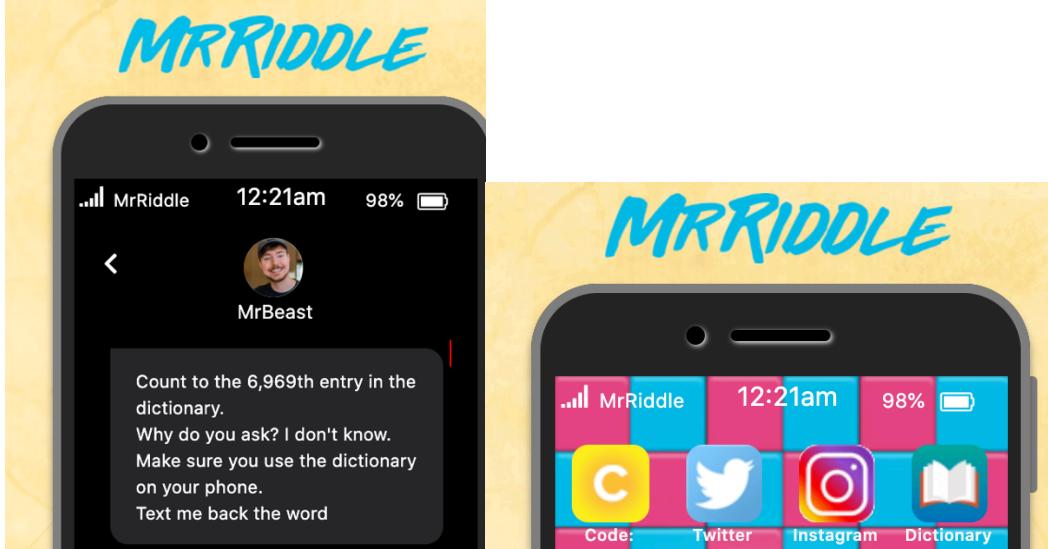

A screenshot of a Twitter profile for "MrCookie" (@mrcookieishere). The profile picture is a cookie. The bio says "I'm only a little bit dumb". The "Following" tab is selected. Under the "Followers" section, "Chandler Hallow" is listed as a follower, with a "Follow" button next to it.

Their tweet has the following link.

A screenshot of a Twitter post by "MrCookie" (@mrcookieishere) dated Jul 28. The profile picture is a cookie. The tweet content is "ilikelotsandlotsofwords.com".

Link: www.ilikelotsandlotsofwords.com

Step 11: Visit the link and you will get a new app and text message from MR Beast

Now you have to find the 6969th word.

You can click through all words or run this python script (Word.py)

```
import requests

target_word = 6969
current_word = 2

cookies = {
    "bitlagoon": "yourcookiehere"
}
url = "https://www.mrriddle.com/phone/api/get-word"

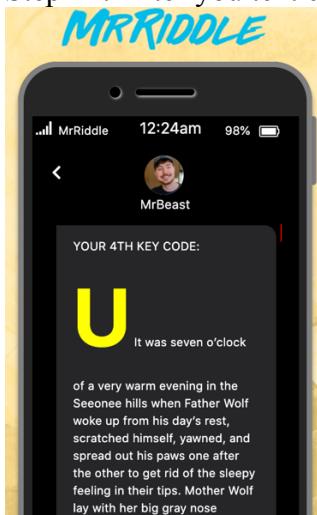

data = {
    "action": "next"
}

while current_word <= target_word:
    start = requests.post(url, cookies=cookies, data=data)
    #print(start.json()["data"]["word"])          #Uncomment to see each word, this can cause random errors
    #print(current_word)                         #Uncomment to see the number your on
    current_word = current_word + 1

print(start.json()["data"]["word"])
```

After sometime you will get the word “cub”

Step 12: After you text cub to MR beast he will reply with the following

It's a very long tweet from the jungle book. (full text found in junglebook.txt)

On line 670 you will find the following message.

670 Mowgli stood upright--the fire pot in his Call me, six nine three six one nine seven eight three one. hands. Then he stretched out

Call 6936197831

Step 13: After call the number you will get the following message.(Well_well_we_ll_.mp3)

You have to take the first letter of every word he says the get the following

wwwyadgkutgwwdyticcom

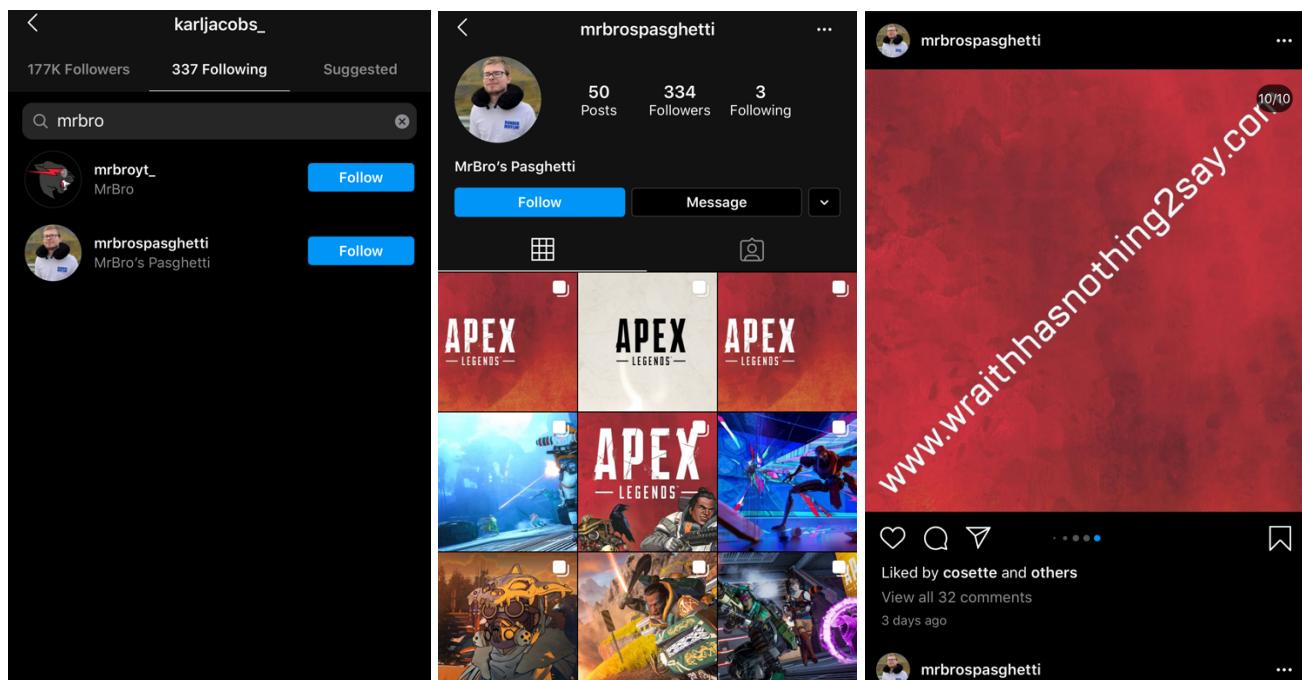

which is the next link.

Link: <http://www.yadgkutgwwdytic.com/>

Step 14: Visit the link and get sent to <https://www.mrriddle.com/apex/> here there another video to watch(Step 14 Apex.mp4)

The video states that Mrbro + Karl Instagram = Apex Wraith

Head over the Karljacobs_ Instagram and search who he's following, search for mrbro. You should see 2 accounts, we want the second one. Look through any of the group of photos and find the next link.

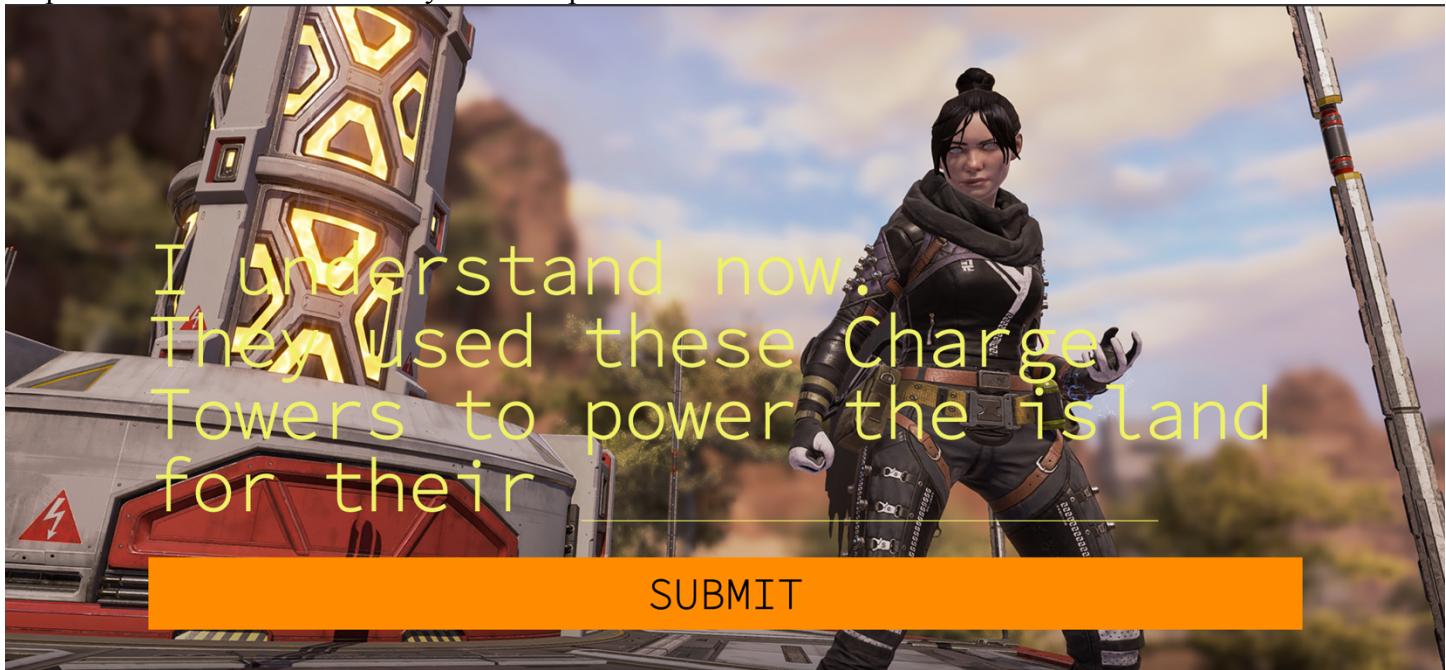

www.wraithhasnothing2say.com

If you go to this link you will see this image again. We have to change the url to www.wraithhasmuch2say.com

Link: www.wraithhasmuch2say.com

Step 15: Visit the Site and it ask you to complete the sentence.

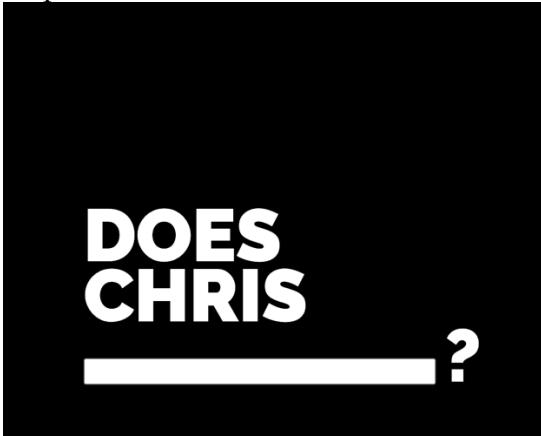

A quick google search and you'll find a reddit post.

A screenshot of a Reddit post on the subreddit r/apexlegends. The title of the post is "I just heard Wraith say that the Charge towers are used to power "their experiments"" and it has 30 upvotes. The first comment is by a user named SPEARHEADPR, who says: "Like I've said in other posts, we have an [Interactions](#) tab where you can read all the lore related voicelines. We implemented this a month ago, but since most of the voicelines were bugged, they didn't play in-game. Here's the [post](#) we made for reference." Below this comment, there are several replies from other users discussing the lore and experiments.

So the answer is experiments

Link: <https://www.mrriddle.com/doeschris/>

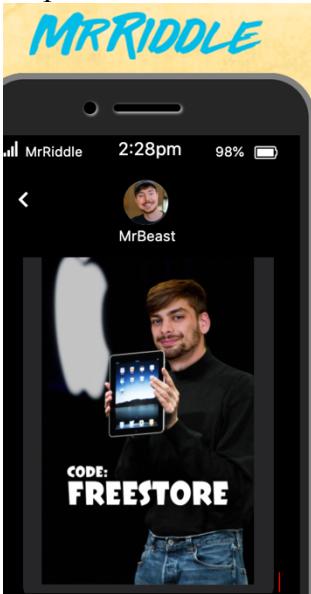

Step 16: Visit the link and it's another complete the sentence challenges

This is a running meme as you can see here <https://youtu.be/BMZP4CtphaU?t=476>

Answer is moisturize

Step 17: You will be brought back to the phone app and have a new message from MR Beast

Nothing else after this. We have to head back to the challenge video for the next clue, a phone number.

Solve This Riddle For \$100,000 (Step 1)

This is Kanji

Number	Kanji	Romaji	Pronunciation
1	一	ichi	イチ
2	二	ni	ニ
3	三	san	サン
4	四	yon	ヨン
5	五	go	ゴ
6	六	roku	ロク
7	七	nana	ナナ
8	八	hachi	ハチ
9	九	kyu	キュー
10	十	ju	ジュー
11	十一	ju ichi	ジューイチ
12	十二	ju ni	ジュニ
13	十三	ju san	ジュサン
14	十四	ju yon	ジュヨン
15	十五	ju go	ジュゴ
16	十六	ju roku	ジュロク
17	十七	ju nana	ジュナナ
18	十八	ju hachi	ジュハチ
19	十九	ju kyu	ジュキュー
20	二十	ni-ju	ニージュー

It converts to 273953436, call this number on the phone app and here the following message.(AutoAttendant_3296.mp3)

If you press 1 you here the following (ApexBio.mp3)

If you press 2 it hangs up and adds a contact to your phone that does nothing.

Instead you need to use the FREESTORE hint, when it asks you to press 1 or 2 put this number in 373378673 which is freestore on the phone. Doing so will get you the following message.(shakespeare_final_24.mp3)

Step 18: Listening to Shakespeare gets you the following link (I hate you Karl)
<http://www.495288andallthemendwomenmerelyplayers997.com/> which redirects you to
<https://www.mrriddle.com/shakespeare/>

YOUR 5TH KEY CODE:

You will be shown the following

SUBSCRIBE TO MRBEAST

[\(588\) 968 - 8823](https://youtube.com/channel/UCX6OQ3DkcsbYNE6H8uQQuVA)

839263

Step 19: text 5889688823 the message 839263and you will be speaking to MR Riddle

Step 20: the link will bring you to the following video with a clue (Apex Legends Season 5 – Fortune's Favor Launch Trailer & Step 20 Subs.txt)

Turn on CC and count the letters (no . , or !)

14 Game over, tin can.

12 Take her and go.

4 Mama!

19 Demônio, go back to hell!

2 No!

2 No!

22 Come to kill me, little girl?

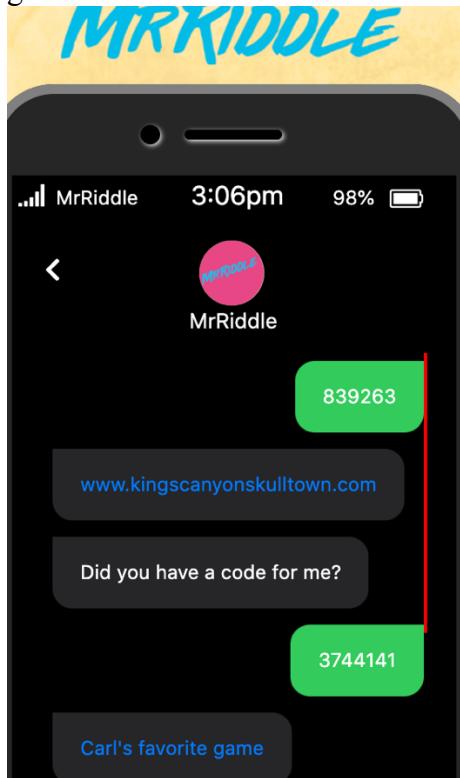

7 Someday.

9 But, for now.

total 91 Letters.

*** Now this is the only part I'm not sure on if you follow the clue and do 91×42068 you get 3828279 but if you text that to MR Riddle nothing happens, the right answer is 89×42069 which give you 3744141. The only explanation I have this is that the MR Beast group missed the second No! in the transcript.

Step 21: When you return to the phone MR Riddle will ask for a code send him 3744141 and get a link to carl's game.

Step 22: Visit <https://www.mrriddle.com/carl/> and you will get a flappy bird type of game

There are three ways to complete the,

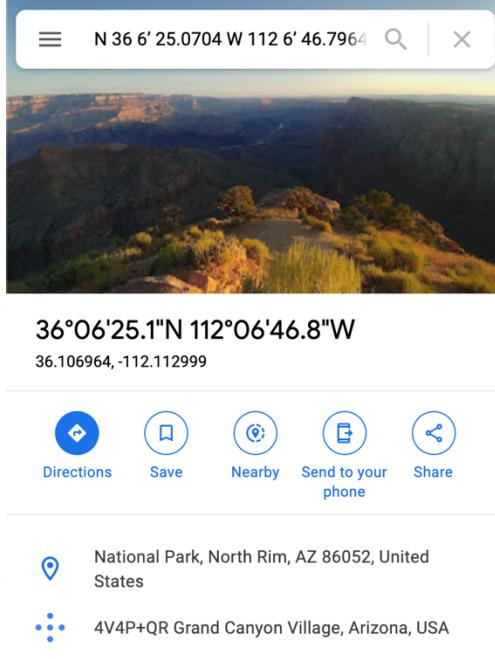

- 1) Play the game and get over 100 points
- 2) Run this command (CarlConsole.txt) in the developers console and look at the last line in the networking tab

```
{"response_code":true,"data":{"gravity":0.25,"jump":-4.6,"score":177,"pipeheight":200,"highscore":158,"game_message":"<div id=\"gamecontainer\"\n<div id=\"gamescreen\"\n      <div id=\"sky\" class=\"animated\"\n      <div id=\"flyarea\"\n      <div id=\"ceiling\" class=\"animated\"\n      </div>\n      <div class=\"modal\"\n      <div class=\"modal-dialog\"\n          <div class=\"modal-content\"\n              <div class=\"modal-header\"\n                  <h5 class=\"modal-title\">Congratulations.</h5>\n              <button type=\"button\" class=\"close\" data-dismiss=\"modal\" aria-label=\"Close\"\n                  <span aria-hidden=\"true\">&times;</span>\n              </button>\n          <p>Here is your next clue: 36\u00b0 6' 25.0704" N\n          112\u00b0 6' 46.7964" W</p>\n          </div>\n          </div>\n          </div>\n          <div id=\"land\"\n              <div class=\"animated\"\n                  </div>\n                  <div>\n                      <div>\n                          <div>\n                              \"message\":\"Event recorded\",\"debug_info\":null}\n\n3) Run this python script and read the output after it finishes (carl.py)
```

```
import requests\n\n## Brought to you by https://twitter.com/LNKRdev\n# Flappy Carl Python Game Solver\n# Don't forget to change cookie\n\nclass FuckinFlappy():\n    # change this\n    cookies = {'bitagoon': ''}\n\n    # don't change this\n\n    target_score = 103\n    url = 'https://www.mrriddle.com/carl/api/do-event'\n    data = {\n        "velocity": 0,\n        "gravity": 0,\n        "jump": 0,\n        "event": "none",\n        "position": 0,\n        "rotation": 0,\n        "score": 0,\n        "pipeheight": 0\n    }\n\n    def start(self):\n        self.data["event"] = "start"\n        r = requests.post(self.url, cookies=self.cookies, data=self.data)\n\n    def jump(self):\n        self.data["event"] = "jump"\n        self.data["position"] += 150\n        r = requests.post(self.url, cookies=self.cookies, data=self.data)\n\n    def score(self):\n        self.data["event"] = "score"\n        self.data["score"] += 1\n        r = requests.post(self.url, cookies=self.cookies, data=self.data)\n        print(r.content)\n\n    def dead(self):\n        self.data["event"] = "dead"\n        r = requests.post(self.url, cookies=self.cookies, data=self.data)\n\n    def run(self):\n        self.start()\n        while self.data["score"] < self.target_score:\n            self.jump()\n            self.score()\n        self.dead()\n        print("Done")\n\nff = FuckinFlappy()\nff.run()
```

You will get the following Lat and Long N 36 6' 25.0704 W 112 6' 46.7964

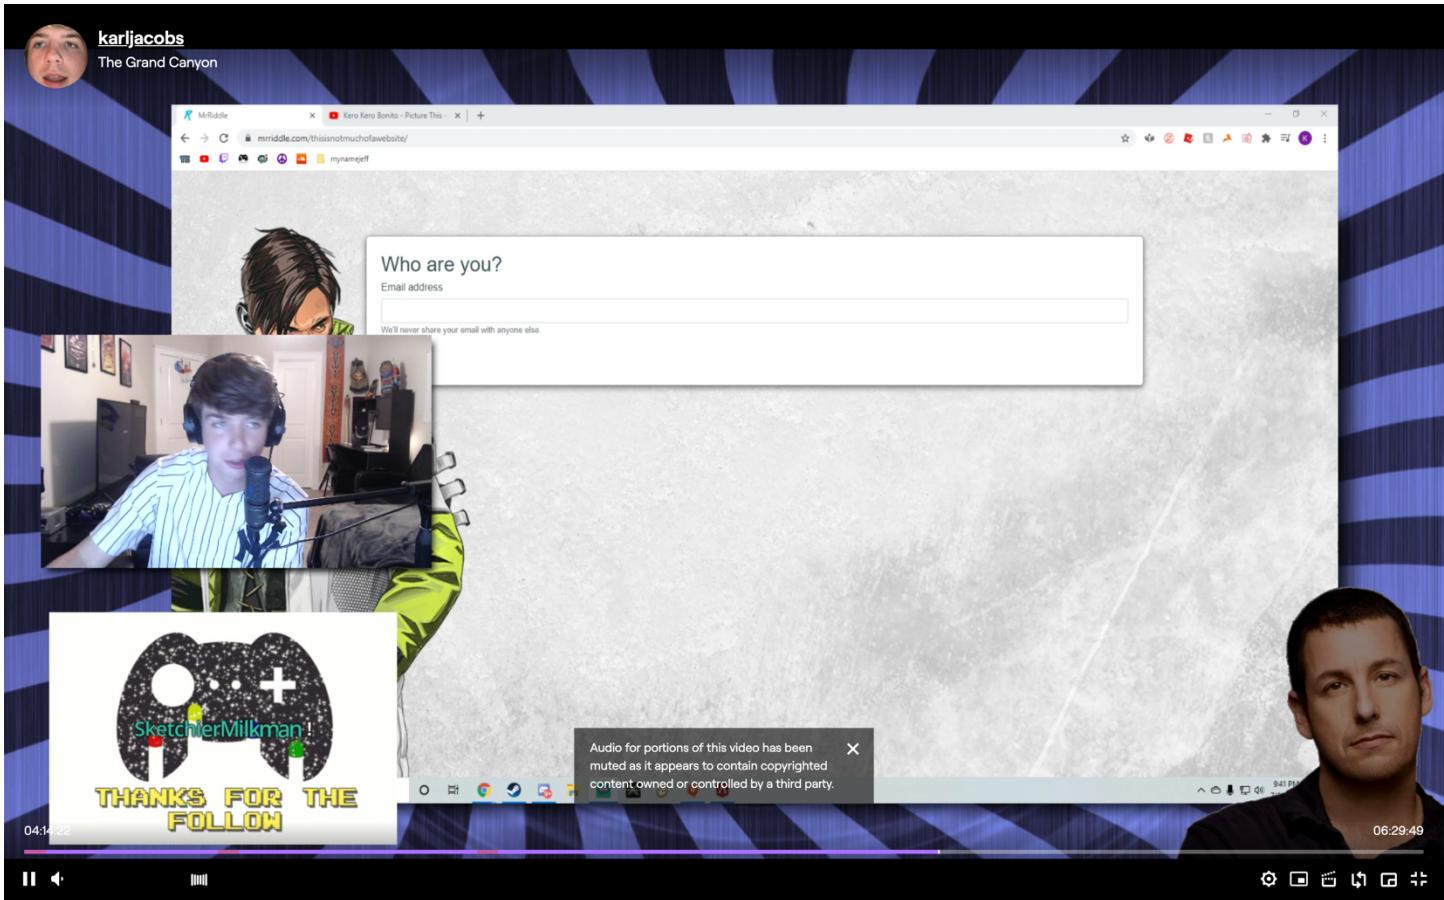

Step 23: Put the Lat and Long in Google Maps and see that it's the Grand Canyon

Going back to the challenge video you will see the following image. Right after Chris yells Karl Jacobs

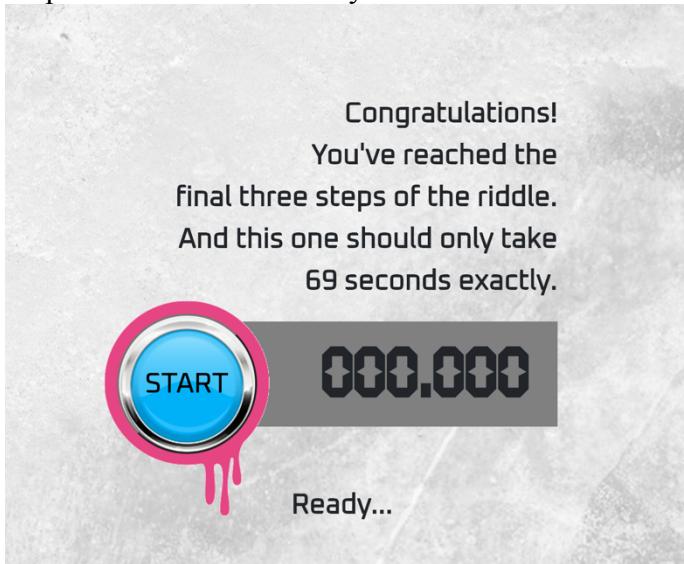

Head over to Karl Jacobs Twitch page and you will find an old stream named The Grand Canyon and around 4:14 you will see the following.

You can see Karl visit a page <https://www.mrriddle.com>thisisnotmuchofawebiste/>

Step 24: Visit the link and you are asked to hold the button for 69 seconds no more or less to continue

You can do either of the following
Run this in the developers console (69second console.txt)

or Run this python script (69second.py)

```

import requests
cookies = {
    "bitlagoon": "yourcookie"
}
url = "https://www.mrriddle.com/thisisnotmuchofawebiste/api/do-event"

headers = {
    "Accept": "application/json, text/javascript, */*; q=0.01",

}

start = requests.post(url, headers=headers, cookies=cookies, data=startData)
print(start.json()['message'])

end = requests.post(url, headers=headers, cookies=cookies, data=endData)
print(end.json()['message'])
print("NOW GO TO https://www.mrriddle.com/onethousand/")

```

Either will take you to <https://www.mrriddle.com/onethousand/>

Step 25: On this page you will see the follow

**CONGRATULATIONS YOU JUST WON
 \$100,000... WAIT JUST KIDDING - BUT
 YOU ARE ON THE LAST STEP...**

YOUR 6TH KEY CODE:
E

Below this you will see a wall of text. Copy this text in to a file and run the follow commands from your shell.

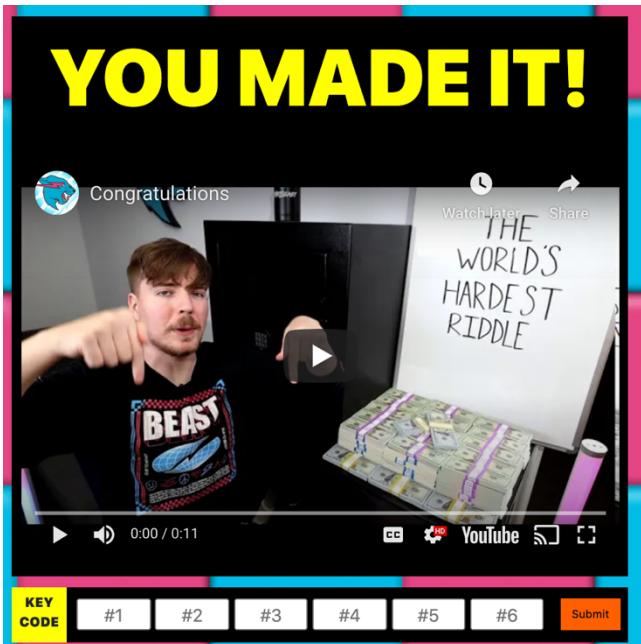

```

sed -e 's/.com/\
/g' Step25 | sed -e 's/www.*$/\
/g' | sed '/^[:space:]]*$/d'

```

You should get the following link www.jkc8hs77mrqwxw1woqvv.com

Step 26: Visit the link and get redirected to <https://www.mrriddle.com/endcredits/>

Put in all the CODE letters you got along the way and you're done.
